Standup Storytelling For Freedom”

Actual Fist-Fighting In American Politics In Recent Times Political analysis by SRiley.

Actual fist-fighting, actual bone to bone and blood smeared to blood, duck and dodge, the magic place where projectiles and blades currently violate the existing rules but..

Fingertips may find their way to eyeballs **accidentally**, Nowadays in USA. politics, **heart-attacks** may occur accidentally etc, fist-fight rules currently convene on the sub-official level, and usually, tho not always, **OUT OF STYLE** nowadays for the news coverage,

It's not the **OLD FISTFIGHT DAYS**
of **TAMMANY HALL, NYC.** of yore,
the gangs of new york
and the organized **brigades** of brawling cops and firemen, with **Civil War** service later. You may remember from your school books. Yes, those particular fistfight days are gone. But, well....

Your school books undoubtedly said that was unusual. And of course it's not.

Trump's Nazis they aint joking. No rules, sticks and iron bars and stones, flaming gas has been seen, run you over with a car sometimes. Army guns with **mass casualties** time after time after time after time after time after time. Just like the weak little **Punky Sht-Az Pss-Punk Punks** they are. **Trump's Nazis.** At demonstrations, prowl for you in the dark if you walk alone. **From an Army soldier view**, probably a **Spent Force** but absolutely still on the field.

THE COPS, Rent-A-Pigs must obviously be included. They've got their own rules, really special Lucky Card Game of rules both Written and Unwritten. Somehow the Cops' Unwritten rules are always **Trump's. Cops always win.** Brutal handcuffs, brutal ride to brutal lockup, show trial, got a record now, brutal prison and/or brutal deportation. Death in custody? Look at 'em kinda cross-ways and some can shoot you dead, even with a camera looking too.

Thank Gd for independent Legal Aid.
Is the local Legal Aid phone number in your pocket? Should be. When a USA. Cop does NOT win, it makes headlines like the 2nd Coming of our savior **Christ.**
Can I hear **Amen?**

I have noticed something up above.. I said that I was offering you an “Army Soldier's View”. In the paragraph before last.

I have such a view, an Army veteran grunt soldier **medical corpsman Corporal's**, and there's a lot that I should tell of the **potential** fighting **MAYBE** obviously coming in “USA. Homeland” battlefield **near you, me Pacifist.** It's not directly on our topic here, but I will greatly summarize. **One paragraph..**

In Political Studies there's a thing I'm calling “**Riley's Dictum**” which I publish here for the first time. Actually, this is my answer to a question many scholars are asking about **your local USA. Homeland Battlefield....**

**Will the soldiers shoot you in the street?
I am thinking that they won't, mostly.**

Because they are too exhausted - by these utterly abnormal and extraordinarily insane Endless Empire Wars - {+ Look! "endless"

said SO BLANDLY, the drunks now actually thinking there is a new Natural Law, called Impervious Magnetism... Immortal Empires alchemically sustain Stupidity Forever, for when your Generals all sell Soul for Money, a wonderful Capitalist magic blooms. +}

No, US. combat troops may be too exhausted to go out in the street and shoot. MOSTLY. There's my Dictum offered here for you.

But still, there's whole big sht-loads of USA. troops, of many obscure different uniforms and badges, hanging about in Homeland,

on-call but poorly fed. Your local College ROTC. Cadets may be called by a Governor, called to loaded arms against you. But I am thinking **Soldiers' food mutinies likely.**

Now back to **actual brawls in US. Politics...**

The **Famous 2000 Goon Invasion.** Supreme Court case of Bush v. Gore got decided by a Goon Platoon with fists and sticks besieging one Florida polling place. The polling people fled without a recount done. Supreme Court nodded their almighty approval, anointing **President Baghdad Butcher Bush.**

You should remember this incident.

Some people say it's common knowledge - **you should know this too** - It's known by ALL the activists here, fellow workers in a campaign dear to me. (Candidate's initial's a letter before C but i should not right out say.) Ie.. These friends are, increasingly,

PHYSICALLY ASSULTED by GOONS paid and sent by the **Billionaire Faction of a party called democratic.**

**Yeah, ALL THAT BUT HERE'S
A STRONG PACIFIST WAY
TO FIGHT BACK !!!**

**A Strong Pacifist Way To Fight Back !!!
Storytelling For Freedom !! YOU!!!**

Familiar to us now from the Me Too Movement, Occupy General Assembly,

But to be precise, psychologically this is a "Jungian" method, PERMANENT transformation directed, similar in its Jungishness to the worldwide... Truth & Reconciliation, our ideal, per the peace of N,Ireland, S.Africa, Rwanda, etc. etc. etc. Storytelling for you in intent and method similar to that. Tried and true, but maybe unfamiliar.

Pacifist Discipline gives ways to fight back and here's one where your skills could probably benefit from some

expert free coaching. in the private fun & security of your home.
