Spirit Hill Tarot

A beautiful deck of Modern Art paintings in brilliant color

A friend wrote:

How is the Spirit Hill deck different
from all other Tarot decks?
The unparalleled beauty of the art work,
therefore its ease of interpretation;
Its psychic depth and resonance,
therefore its adaptability to a multiplicity
of philosophical and spiritual paths,
and its usefulness to the novice reader,
the Tarot master and the spiritual seeker;
Its visual originality and innovation,
on a firm grounding in the classic
Tarot structure.

The painter adds:

And the intriguing real art story
how the paintings were created
on a magic hilltop
in the forest mountains.

This is a work of love.

These cards are from a great array
of paintings made in a flood of
the discovery of love,
in ten seasons in a hilltop cabin
in the mighty magic forest mountains
of New England.

And this is political art,
for those were also months when
the Empire threw away its mask,
finally revealing its face and fate
to everyone.

Then our building of the Good New Age
could begin in earnest and this deck
was conceived as a means to help us
hear and see and know
our guiding souls.
