Brochure/Comic 38 pages including covers.

- The author is a clergyman, a moral thinker in our times, and an old soldier too.
- First trained as a US. child officer for US. child soldiers,
- Later a Basic Training Corporal, with my stripe patch sewn to look as if it's falling off, actively resisting war on duty.
- Later a mud-field medical corpsman in a ready-reserve of laboring suffering private soldiers during an endless horrifying useless war when human lives and souls were worthless,
- Decades as an activist with outlook and knowledge of experienced soldier, now working largely as a chaplain to the chosen movement of that particular decade or year.

- WHILE READING THIS COMIC, you should look at the author's "Army Stories" book. That project preceded this Vapes Shops Project and helped inspire it.
- This comic book develops a new Evolution Science theory from "Army Stories", a proposed theory called "Natural human anarchist martial spirit".
- That theory explains what the author lived, the ancient dancing ground where Honest Soldiers meet the Mighty Murder Mill, the same mill that's killing Earth.
- And explains a cheat by which modern armies rob the natural yearning of human young to do their duty.
- Offers an evolutionary basis for a moral compass for the art of war, and potentially much else.

- "Natural Human Anarchist Martial Spirit" is also a Vapes Handout Sheet.

11. Cosmic Navigation

Brochure/Comic 18 pages including covers.

- In the question of Climate Catastrophe, this year I have switched entirely to Seth.
- I now say the Apparent Death of Our Living Mother Earth is something of a billion billion more dimensions than we can know with ordinary consciousness.
- And it is a

thing of far far more good creative love and beauty than our eyes here are accustomed to see. •For it may be this narrow and constantly constricting threshold we are rushing over can be Entry Portal of The Good New Age. That's like what Seth said. •To quote a poem on the subject: •"Splint up people's broken wings, bandage broken hearts so they can read the charts to fly away." •Help facilitate a good transition. Help facilitate a creative and joyful reality-transition for our fellow human beings, •And any others who request our help.

12. Documents For The Reader

Brochure/Comic 38 pages including covers. •Companion book to all Riley's Tarot decks, also useful with any other deck whatever and many other psychic reading methods. •This book's first two chapters give a fully usable description of the author's core divination method, which he has taught to many other readers for many years, a teaching effort by which the author explicated so-called "mental tricks for entering quantum mode", which is immemorially natural to human beings, and also called "high heart-sympathy". •Note: Your experience having serious conversations with people about life's difficulties will be far more useful than prior Tarot experience, or any fondness for metaphysics. •Packed with many short strong poems, proposed mystic doctrine, a modern true story of two magical engineers, and more. •This book is written for Adult and Young Adult reading level.

13. Drone Strike Painting - Statement Of Morality

Handout Sheet for front/back of one paper. •Poem While Painting •My son and his wife just had a baby, a beautiful new astonishing human child. •Last month two women went out to a water well at night and were rendered into bloody pieces. •I cannot pretend that these two things are different sorts of things, pretend that they are not

the same type and quality of fact, for they are human facts. •I cannot say, Oh one is mine and one not mine, •For my one human heart strains to encompass both, •And strains to examine them with the fear and hope and joy and shame and trembling pity, •That are all alike the province of one human heart.

14. Frontispieces From Tales Of Men And Women

And the paperback's covers. •And also, most sample pages have a small picture. •At Ninann's wonderful fair, August 3, the public took very few Handout Sheets featuring pictures. •But the Handout Sheets featuring "poems, stories, brief philosophy discussions" were almost all gone at end of day, •Indicating a very strong public desire for serious discussion.

•There's a different version of this story in the "Army Stories" book.

17. Micro-Smoking For Cannabis Patients - A Free Tip Sheet

Handout Sheet for front/back of one paper.

•This is exactly what the title says. •In fact the herbalists at Worcester's best natural food store have a copy of this sheet, and studied it, and one recognized me. •But meanwhile also, since military veterans are prominent among medical cannabis advocates and users, •Has a bit of cannabis-related medical-corpsman military memoirs.

•Here is presented "The Matter of Britain". •That's what the King Arthur tales are called, •The Stonehenge Country tales, •As if that vast dense web of scenes, characters and plots, •Living new in every generation since very long before King Arthur coalesced into a single name, •As tho those stories are the substance of a land. •And indeed the ageless worldwide Triple Goddess, She who always is the land, permeates those tales for good and all.

20. Old Greek Lives

Brochure/Comic 36 pages including covers.

•In a far distant corner of the same vast Culture-World, far from distant Britain •Ancient Greece, the Western World's culture-crossroads island gate to/from the whole world's colossus, South Asia.

•Ancient Greece, its islands seeming step stones to riches. There male humans and gods together often wander off to piracy or war. •So the Triple Goddess there, ruler in that land's soul as everywhere, rules there in open opposition to the Male deserters. •Meanwhile the Old Hinduism of the Ancient East floods thru, teaching Her acolytes pure arts of Spirit.

21. Pathway To Heaven - Fine Art Graphic Novel

Handout Sheet for front/back of one paper.

•These pictures tell of a "Chemical Marriage" in my own life. That is the title of a famous old book in the mystic faith of Alchemy that came to Europe from the East. •So my real life event held the same mysticism as sung by the great poets Rumi and Lao Tsu in the East. They famously sang of Holy Spirit in our daily lives and in our erotic love. •And actually this fine art is friendly. You can safely set your eyes free to guess. Just look, read the text and look again. Maybe you've felt what happened for my beloved and I.

25. Shamanic Vision Dance And Other Stories

Brochure/Comic 38 pages including covers.

- The American Pagan Movement
- My clearest exploration yet, thru a gathering of my own memories, of how our religious path began half a century ago.

26. Stubborn Creativity - Free Art Lesson

Handout Sheet for front/back of one paper.

- Here is TAGORE'S DICTUM, the central teaching of Bengali revolutionary Art Professor Rabindranath Tagore. I tell it to students like this:
 - Everyone always asks How can I become an artist, a Real Artist, and well it's a simple process but it's HARD TO DO.
 - First look around you deeply in the place where you are, and see there what is MOST UGLY.
 - Then, knowing that, deeply look around again and see what is MOST BEAUTIFUL where you are.
 - Now decide how you can SERVE THAT BEAUTY.
 - And simply by actually thinking this you have become a real artist.
 - I first heard this dictum late in life, late in my art career, but I recognized at once that is exactly what I did to get the flow of work and inspiration started.
 - This sheet includes poetic portraits of Kahlo, Solnit, Crabapple, and Van Gogh. Plus information on harmonicas.

27. Socialist Paganism In America

Brochure/Comic 28 pages including covers.

- An unfinished manuscript for a scholarly history book
- You may be surprised that a political analysis of America's Pagan movement is being proposed.
- But in fact our movement has been an anarchist freedom struggle in the working class of a dominant empire's dominant ethnic group,
- And it is large scale and successful, and it has improved the Ground Of Struggle in significant ways.
- And these facts should be better known.

28. Talking With Birds - Do-It-Yourself For Humans All Ages

Handout Sheet for front/back of one paper.

- It's actually not hard talking with your local song-birds in Bird Language. Most people can if they think and pay attention.
- How? There's something they really want to know so tell them that: Who you are. Decide what your Bird Name is and "tweep" and "keek" it to them, same way every time you go out.
- And if you pay attention to the conversation, of course it really works. Once they know you, they will all go about their business chatting sparsely much like busy human people.
- But what is your true bird name? It's you who must decide. Try this maybe: Imagine flying with the birds and imitate whatever aethereal notes you hear that seem brightest.

•ON THE FLIP SIDE:

My true strange, powerful, beautiful, empowering first experience of Yoga, welcome healing for a weary soldier.

29. The Case Of One Cadet - A Recovered Memoir

Handout Sheet for front/back of one paper.

- US. Army trained me first to be a child officer for child soldiers.
- Our adult instructors chose me as a senior leader in our slummy Houston high school's ROTC Cadets. We trained with army books and films and weapons.
- But I felt myself to be, there among the city's many poor, a Revolutionary soldier of some kind, from the very start.
- A deep instinct awoke to serve, and a deep apt wish to know the Good Soldier's Path, but too an instinct not to serve the masters of this neighborhood and world around me there.
- This powerful small tumult of contradictions, me so very open and large-hearted, and yet so very young, the moral hopes and compromises in some form perhaps not often seen so clearly, yielding rare insights

maybe. •Writing this, I thought about it better than I'd ever done before.

30. T-Shirt Transfers

Brochure/Comic 11 pages including covers. At Niniann's Fair on August 3 these were among the Handout Sheets featuring pictures. •Some are bold pictures per se while others are bold poems set in bold typography.

30. The Passing Of Uther Pendragon

Brochure/Comic 20 pages including covers.
 •Script for a one-act play in King Arthur's time
 •Tragic agonizing death of Arthur's father, king before him in ceaseless wars, dying of an old wound now re-opened.
 •And the riddling final blessing from his one-time royal lover, the noble Countess Igraine, Arthur's mother very secretly.
 •And the weird old Druid Merlin, summoned to Lady's castle chamber, carried newborn Arthur safe away from all the horrid wars, away to hiding unknown to the world, and now reveals the secret to his dying royal friend in parting. •So in flowing blood and tears the New Man is called and comes.
 •A one-act drama arranged for dramatic reading, with a little acting, with scant rehearsal, preferably under a night sky, by two people on stools.

32. The Proper Contents Of This Cardboard Box - Public Notice

Handout Sheet for front/back of one paper.
 •A visual comparison of pregnant silence and futile noise.

33. Website Instructions - Do-It-Yourself Maybe

Handout Sheet for front/back of one paper.
 •I'm sorry I called this sheet "Website Instructions". Should have called it "Performance Operating Instructions" instead. •It gives my starting concept of Operating Instructions for the project's Performing Art Piece, which was eventually done with fine success on August 3.

•Reading this sheet now it still seems good, different as our tent at Niniann's Fair turned out to be from my original idea of a retail space on a vapes shop glass counter as given here. •So if you feel any wish to replicate our August 3 in your place and time, then you surely should examine this Handout Sheet.

•And if you are embarked on a REAL ARTIST career: •The notion of DADA here is seldom stated by other teachers. •In this art work Dada consists of using human beings, plus a cardboard box, plus magic objects in the box, plus reality-level randomness, •To conjure a Divine Intervention plea that seemed to work.

34. Winging With Birds - Do-It-Yourself For Humans All Ages

Handout Sheet for front/back of one paper.
 •I first heard in 1959 the world might end from Global Warming, and six decades then I watched that threat grow into near-certain death of all the life we see on Earth.
 •But I always loved small light trucks and bikes and planes, and my body dreamed of winging over oceans. •Those vivid minutes, vivid vivid minutes, in light small aircraft co-pilot seat and my controls on, a kite-work machine. •Those vivid minutes my hands were the wings.
 •Recent morning early, midnight and a quarter hour plus, doing art and step out back for a refreshing smoke. •Suddenly here's our MIDNIGHT TEMPLE YARD.
 •Little song bird migrating thru, up above asleep in tree, but wakes and stretches wings, I see thru its eyes it's watching me.
 •And suddenly again my hands are wings.
 •Death shall not have us for there is no death.
